The school congratulates the students who have achieved excellent results in all competitions. At the beginning of the Lunar New Year, I encourage students to examine different aspects of their performance and actively look for ways to improve themselves or strive for better performance. The main objective of the school's arrangements is to facilitate students' learning and growth. We hope that our students can work hard and grow up in a good learning environment. The fifth wave of COVID-19 is severe. I wish you good health. I also hope that students can return to campus in good health after the outbreak is eased and continue to resume face-to-face teaching.
