2. Students' all-round development

- a. The school organized a fancy rope skipping demonstration and heart health talk for students on 1st June. Through the talk and rope skipping demonstration, students learned about the risk factors of heart disease and prevention methods, encouraged students to take more exercise to establish a healthy lifestyle, reduce the risk of heart disease and stroke, and enjoy the fun of doing exercise.
- b. The school held a cross-curricular Thanksgiving activity with the theme of Father's Day in mid-June. Together with Chinese Language, English Language, Mathematics and Visual Arts, the Guidance Team allowed students to design, shoot videos and make cards. Students expressed their gratitude through different activities, learning to cherish family and others who care for them.
- c. On 24th and 25th June, some P.1 to P.3 students attended the Ocean Park Summer Adventure Course to observe and touch sea lions or seals and learn about their physical characteristics. They attended an educational demonstration on sharks and fed the sharks, and explored behind the scenes shark care facilities. It was a great learning experience to deepen students' understanding of animals, marine ecology and conservation.
- d. On 26th June, the Putonghua Theme Study Day was held. During the day, there were several games for students to review and apply their knowledge of Putonghua pronunciation. The students were all engaged and enjoyed it.
- e. On 28th June, the school invited the Drama Wonderland "The Masked Family" to warn against the dangers of gambling.

3. Home-school cooperation

The day was full of activities, including a tour of Lau Fau Shan Tsim Bei Tsui, viewing Mai Po Deep Bay and Ramsar Wetland, visiting seafood Street and Kam Tin Red brick House, visiting various specialty shops, and enjoying abalone seafood at Lau Fau Shan. Although it rained heavily from time to time, the trip went smoothly and everyone was able to enjoy themselves.
- b. The school organized a parents' talk on "You are Happy, So Your Children are Happy" on 21st June to let parents understand negative emotions and their impact on their children, so as to strengthen the elements of parent-child relationships. The content of the seminar enables parents to grasp the main points and ways to deal with their children's negative emotions.
- c. On 28th June, the school conducted a parents' talk on "How to Help children establish good habits through effective communication methods" for parents of Understanding Adolescent Project members in P. 5 and P. 6 and parents of senior secondary students. Ms. Chow Yin Foon and Ms. Lam Suk Man, social workers of the Hong Kong Playground Association, had professionally analysed the mental trap of parents from a variety of perspectives and what is meant by active listening and understanding of the reasons behind their children's behaviour. Parents were happy to share examples of their time with their children, and there was a lot of communication in the process.

In the twinkling of an eye, this term is coming to an end, and it is also the beginning of the long summer vacation. Students should enjoy the holidays, do more sports, go out more to see social affairs, and maintain self-study to improve the academic level that may not be satisfactory. The graduating students will soon enter secondary school. We hope you will be well equipped for the new stage of study and do not forget the teachings and encouragement of your teachers. You are welcome to come back and talk with your teachers more often. I wish you all a happy and prosperous summer vacation!
