Circular on school activities and special arrangements for July and August 2024

Dear Principal,

I acknowledge the information of the circular.

Parents' remarks (if any): _____

Student's Name: _____ ()

Parent's Signature: _____

Class: _____

Date: _____

School report, June

1. Teachers' professional development

On 21st June, the Inspector from the Education Bureau's Student Support Team conducted a year-end visit to our school. During the visit, the Inspector received a comprehensive briefing on the school's initiatives in various areas from the Student Support Officer Kwok Hoi Yan, and provided valuable feedback on our programs.

2. Students' all-round development

- a. In mid-June, the school organized an interdisciplinary gratitude activity centered around Father's Day. The counselling team collaborated with the Chinese, English, and Mathematics departments to facilitate activities where students expressed heartfelt wishes to their fathers through reading English books, listening to father-themed songs, creating hand-painted fans, crafting wish cards, and making wish boxes. These activities aimed to teach students the significance of honoring and being filial to their parents.
- b. To encourage students to delve into history and culture and foster patriotism, the school hosted the event "Light and Shadow on Campus" on 18th June. Students and teachers watched the movie "Chang An" together. This film narrates the tales of Gao Shi, Li Bai, Du Fu, and others post the An Lu Shan Rebellion, evoking a range of emotions among the viewers. Following the screening, students penned down their reflections on the movie, using writing to express their sentiments and reactions towards the Chinese national spirit portrayed in "Chang An".
- c. On 22nd June, a group of 18 students visited the airport to take part in the MTR Budding stationmaster activity. They diligently addressed passengers' queries and actively supported the station's daily operations. The MTR staff commended the students for their exceptional performance and dedication to their responsibilities.
- d. On 23rd June, students from Primary 1 to 3 embarked on an enriching summer adventure course at Ocean Park. They had the opportunity to closely observe and interact with sea lions or seals, learning about their physical attributes and engaging in various challenging tasks. These activities facilitated a deeper understanding of animals, marine ecology, conservation efforts, and the importance of ocean protection and reducing greenhouse gas emissions, providing a rare and valuable learning experience.
- e. A Putonghua-themed study day was held on 25th June. The event featured several booth games designed to help students practise and apply their oral skills acquired through daily learning. The students actively participated in the games, showcasing their engagement and enjoyment in the learning process.
- f. The school organized another "Monthly Awards Ceremony" on 25th June, where external academic, STEM, and sports awards and certificates were presented to deserving recipients. Teachers and students came together to congratulate the awardees, bringing a sense of pride to the educators who have nurtured their students' growth. It is hoped that students will continue to showcase their talents, work diligently, and strive for excellence.
- g. On 26th June, our school invited the Chatteris Educational Foundation to organize an English drama event targeting students from Primary 3 to 5. Native-speaking English tutors and over twenty volunteers led the students through the drama sessions to ensure their full engagement. The students had a great time participating in various English drama activities and relished the experience of learning English. The English tutors encouraged the students to unleash their creativity and perform the storyline spontaneously. The students demonstrated their confidence and delivered impressive performances.
- h. To foster students' teamwork and leadership skills, Primary 6 students participated in a 3-day, 2-night graduation camp in Mui Wo. Activities such as Mui Wo orientation, adventure tasks, sandcastle competitions, cannon building, and competitive games were arranged. These activities aimed to enhance students' interpersonal skills, strengthen relationships with classmates and teachers before graduation, and engage in farewell activities.

In the blink of an eye, this term is coming to an end, and it is also the beginning of the long summer vacation. Students should enjoy the holidays, do more sports, go out more to see social affairs, and maintain self-study to improve the academic level that may not be satisfactory. The graduating students will soon enter secondary school. We hope you will be well equipped for the new stage of study and do not forget the teachings and encouragement of your teachers. You are welcome to come back and talk with your teachers more often. I wish you all a happy and prosperous summer vacation!
